Grappa Cherries

By jvcooks

Editors' Comments:

Makes 1 jar

- 1 bunch cherries
 - Grappa
 - Glass jar with lid
1. Wash and thoroughly dry the cherries. Snip the stems off the cherries, but leave a little of the stem in tact - it acts like a "little umbilical cord" drinking up the grappa. Place cherries into glass jars and cover with grappa. Seal and store in a cool dark place for at least 6 months.
